Comments on the News

"It was a strong quarter, with continued global customer momentum across the Fortune 500 and Global 2,000, as more organizations look to Workday for the ability to plan, execute, and analyze in one system powered by machine learning. In addition, we celebrated one year with Adaptive Insights and continue to make great progress on our integration vision," said Aneel Bhusri, co-founder and CEO, Workday. "As we move into the second half of the year, we are continuing to invest in areas that leverage our strengths and open new opportunities."

"We delivered strong Q2 results with subscription revenue up 34%, along with solid operating margins and cash flow," said Robynne Sisco, co-president and chief financial officer, Workday. "Based on our second quarter results, we are raising our fiscal 2020 subscription revenue outlook and now expect subscription revenue of \$3.06 to \$3.07 billion. We expect our third quarter subscription revenue to be between \$783 and \$785 million. We continue to prioritize investing in long-term growth initiatives, while delivering solid operating margins and cash flow over time."

Use of Non-GAAP Financial Measures

Reconciliations of non-GAAP financial measures to Workday's financial results as determined in accordance with GAAP are included at the end of this press release following the accompanying financial data. For a description of these non-GAAP financial measures, including the reasons management uses each measure, please see the section of

the tables titled "About Non-GAAP Financial Measures." A reconciliation of our forward outlook for non-GAAP operating margin with our forward-looking GAAP operating margin is not available without unreasonable efforts as the quantification of share-based compensation expense, which is excluded from our non-GAAP operating margin, requires additional inputs such as the number of shares granted and market prices that are not ascertainable.

Forward-Looking Statements

This press release contains forward-looking statements including, among other things, statements regarding Workday's ability to integrate acquired companies; strategic investments; fiscal year and third quarter subscription revenue outlook; and ability to prioritize investing in long-term growth initiatives while delivering solid operating margins and cash flow over time. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "seek," "plans," "project," "looking ahead," "look to," "move into," and similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to risks, uncertainties, and assumptions. If the risks materialize or assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. Risks include, but are not limited to: (i) risks related to our ability to successfully integrate Adaptive Insights' operations or failure to achieve the expected benefits of this or any other acquisition or transaction; (ii) our ability to implement our plans, objectives, and other expectations with respect to the Adaptive Insights business or that of any other acquired company; (iii) breaches in our security measures, unauthorized access to our customers' data or disruptions in our data center operations; (iv) our ability to manage our growth effectively; (v) competitive factors, including pricing pressures, industry consolidation, entry of new competitors and new applications, advancements in technology, and marketing initiatives by our competitors; (vi) the development of the market for enterprise cloud applications and services; (vii) acceptance of our applications and services by customers, including any underlying technology such as machine learning and artificial intelligence; (viii) adverse changes in general economic or market conditions; (ix) the regulatory, economic, and political risks associated with our international operations; (x) delays or reductions in information technology spending; and (xi) changes in sales, which may not be immediately reflected in our results due to our subscription model. Further information on risks that could affect Workday's results is included in our filings with the Securities and Exchange Commission (SEC), including our Form 10-Q for the quarter ended April 30, 2019 and our future reports that we may file with the SEC from time to time, which could cause actual results to vary from expectations. Workday assumes no obligation to, and does not currently intend to, update any such forward-looking statements after the date of this release.

- (1) GAAP net loss per share is calculated based upon 214,517 basic and diluted weighted-average shares of common stock. Non-GAAP net income per share is calculated based upon 236,706 diluted weighted-average shares of common stock.
- (2) Other operating expenses include total employer payroll tax-related items on employee stock transactions of \$19.0 million and amortization of acquisition-related intangible assets of \$10.4 million.

- (3) We utilize a fixed long-term projected tax rate in our computation of the non-GAAP income tax provision to provide better consistency across the interim reporting periods. For fiscal 2019, the projected non-GAAP tax rate was 17%.

About Non-GAAP Financial Measures

To provide investors and others with additional information regarding Workday's results, we have disclosed the following non-GAAP financial measures: non-GAAP operating income (loss) and non-GAAP net income (loss) per share. Workday has provided a reconciliation of each non-GAAP financial measure used in this earnings release to the most directly comparable GAAP financial measure. Non-GAAP operating income (loss) differs from GAAP in that it excludes share-based compensation expenses, employer payroll tax-related items on employee stock transactions, and amortization of acquisition-related intangible assets. Non-GAAP net income (loss) per share differs from GAAP in that it excludes share-based compensation expenses, employer payroll tax-related items on employee stock transactions, amortization of acquisition-related intangible assets, non-cash interest expense related to our convertible senior notes, and income tax effects.

Workday's management uses these non-GAAP financial measures to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short- and long-term operating plans, and to evaluate Workday's financial performance. Management believes these non-GAAP financial measures reflect Workday's ongoing business in a manner that allows for meaningful period-to-period comparisons and analysis of trends in Workday's business as they exclude expenses that are not reflective of ongoing operating results. Management also believes that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating Workday's operating results and prospects in the same manner as management and in comparing financial results across accounting periods and to those of peer companies.

Management believes excluding the following items from the GAAP Condensed Consolidated Statements of Operations is useful to investors and others in assessing Workday's operating performance due to the following factors:

- *Share-based compensation expenses.* Although share-based compensation is an important aspect of the compensation of our employees and executives, management believes it is useful to exclude share-based compensation expenses to better understand the long-term performance of our core business and to facilitate comparison of our results to those of peer companies. Share-based compensation expenses are determined using a number of factors, including our stock price, volatility, and forfeiture rates that are beyond our control and generally unrelated to operational decisions and performance in any particular period. Further, share-based compensation expenses are not reflective of the value ultimately received by the grant recipients.
- *Other operating expenses.* Other operating expenses includes employer payroll tax-related items on employee stock transactions and amortization of acquisition-related intangible assets. The amount of employer payroll tax-related items on employee stock transactions is dependent on our stock price and other factors that are beyond our control and do not correlate to the operation of the business. For business combinations, we generally allocate a portion of the purchase price to intangible assets. The amount of the allocation is based on estimates and assumptions made by management and is subject to amortization. The amount of purchase price allocated to intangible assets and the term of its related amortization can vary significantly and are unique to each acquisition, and thus we do not believe it is reflective of ongoing operations.
- *Amortization of debt discount and issuance costs.* Under GAAP, we are required to separately account for liability (debt) and equity (conversion option) components of the convertible senior notes that were issued in private placements in June 2013 and September 2017. Accordingly, for GAAP purposes we are required to recognize the effective interest expense on our convertible senior notes and amortize the issuance costs over the term of the notes. The difference between the effective interest expense and the contractual interest expense and the amortization expense of issuance costs are excluded from management's assessment of our operating performance because management believes that these non-cash expenses are not indicative of ongoing operating performance. Management believes that the exclusion of the non-cash interest expense provides investors an enhanced view of Workday's operational performance.
- *Income tax effects.* We utilize a fixed long-term projected tax rate in our computation of the non-GAAP income tax provision to provide better consistency across the interim reporting periods. In projecting this long-term non-GAAP tax rate, we utilize a three-year financial projection that excludes the direct impact of share-based compensation and related employer payroll taxes, amortization of acquisition-related intangible assets, and amortization of debt discount and issuance costs. The projected rate considers other factors such as our current operating structure, existing tax positions in various jurisdictions, and key legislation in major jurisdictions where we operate. For fiscal 2020 and 2019, we determined the projected non-GAAP tax rate to be 17%. We will periodically re-evaluate this tax rate, as necessary, for significant events, based on our ongoing analysis of the 2017 U.S. Tax Cuts and Jobs Act, relevant tax law changes, material changes in the forecasted geographic earnings mix, and any significant acquisitions.

The use of non-GAAP operating income (loss) and non-GAAP net income (loss) per share measures have certain limitations as they do not reflect all items of income and expense that affect Workday's operations. Workday compensates for these limitations by reconciling the non-GAAP financial measures to the most comparable GAAP financial measures. These non-GAAP financial measures should be considered in addition to, not as a substitute for or in isolation from, measures prepared in accordance with GAAP. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore comparability may be limited. Management encourages investors and others to review Workday's financial information in its entirety and not rely on a single financial measure.
